

Love Child

Bilal

I see your mind's made up, I see you've had enough, unruly love
She cannot take my heart, something you cannot plan
Like a love child
You thought it would be fun to be a freak like me
Living on the edge, she ran away from home
Now daddy's sad and blue for his love child
Baby you're the one
The one who had all the answers
Baby you're the one
The one who has all the questions too
Baby you're the one
The one who needs to let go
Love child, love child
Love child I dare you to be true, I dare you to have fun
Just close your eyes and listen to your heart
I know you'll find a way little love child
Baby you're the one
The one who had all the answers
Baby you're the one
The one who has all the questions too
Baby you're the one
The one who needs to let go
Love child, love child
Love child
Like a love
