

Run Daddy Run (feat. Pistol Annies)

[Miranda Lambert](#)

Daddy can you hear the devil drawing near
like a bullet from a gun, run daddy run
all the songs you used to sing to me would rock the birds to sleep
I need you now so please somehow put rockets on your feet
oh oh oh ohh

Daddy can you hear the devil drawing near
like a bullet from a gun, run daddy run
saw that dark cloud coming from a million miles away
oh how I've dreaded this god forsaken day
wow wow wow wow

Daddy can you hear the devil drawing near
like a bullet from a gun, run daddy run
Mamas been cryin in the kitchen
sisters been afraid of the dark
I've been gatherin the pieces of all these shattered hearts
I don't care where you go to
I don't care where you land
just get out of here daddy as fast as you can
wow wow wow wow

Daddy can you hear the devil drawing near
like a bullet from a gun, run daddy run
run daddy run, run daddy run
run daddy run, run daddy run
