Ghetto Youth

The Business

So you come from the ghetto
don`t mean - you no good
ain`t sophisticated like they say you should
Years of being told that your bad as bad can be
Well stick your fucking rules
cause they don`t mean that much to meThis side of the truth
Your pride - Ghetto youthYour always told what to do
from the day that your born
its the same old record
now its really sounding worn
so when your doing the best
the best that you can
your getting shit from the boss
man, don`t let him get to youThis side of the truth
take pride - Ghetto Youth
