

Need Me (Every Night)

Ho'okoa

Your my lady love. Wanna tell you something on my mind.

Oh how you love me (how you love me baby, how hold me baby) the way you hold me (so right) I would wanna hold you every night (I would wanna hold you every night)

I remember when we first met, you were always playing hard to get, those silly games silly games silly games. And I remember when I told your friend, whereâ€™s it from can I see her again? This lady love lady love lovely lady. So tell me what I have to do, I gotta feeling that this love is true. Can I sing this song for you? Cuz you might be my baby buu oooooooo.

Oh how you love me (how you love me baby, how you hold me baby) The way you hold me (so right) I would wanna hold you every night (I would wanna hold you every night) Oh how you need me (how you need me baby, how you kiss me baby) the way you kiss me (so right) the way we love each and every night (the way we love each and every night)

I pick you up just to be with you, but you lunch and some flowers too. Just so in love, so in love so in love. Loving you is so easy to do, never never would I ever hurt you. I never would, never would never would. We both fell in love before. But what we have is so much more.

So I sing this song to you, cuz your my baby buu oooooooo oh how you love me (how you love me baby how you hold me baby) the way you hold me (so right) I would wanna hold you every night (I would wanna hold you every night) ooooo oh you need me (how you need me baby how you kiss me baby) the way you kiss me (so right) the way we love each and every night (the way we love each and every night)

Wanna tell you something on my mind.
