

Egyptian Gardens

Kaleidoscope

Went to the Egyptian gardens just the other night
Saw a red headed lady was flat outta sight
Spent all my money honey to spend the rest of the night
And to watch her do that thing that they call.Chorus:Had happy horny snappy fingers at the end of the night
When some dude walks up to me and says thats mine, lets you and me
Fight
Pulled out my rosin and said baby have a bite and he went floatin
Off through the fog with that thing called.So I traipsed up to the red head and said gee babe but your nice
She smiled and stuck her arm through mine and said Sol, baby say it
Twice
Ever since I run that tomcat off me and her make out just like mice
Every time she do that thing that they call
