

Cannibal Girl

Head Automatica

She told me all the things she knew
You give her one, she'd reach for two
The cold war on the sofa is getting closer
And she's the hardest thing to do
When the mantis in her preys on you
An appetite fit for a king and his love
I don't wanna bore you
But here I go again, cannibal girl
You've been eating me alive
I don't wanna bore you
But here I go again, cannibal girl
So, lately I've been meaning to
Say a few things to you
She gets all the good attention
And I get honored with the mention
And she's the hardest thing to do
When the mantis in her preys on you
An appetite fit for the kids you love
I don't wanna bore you
But here I go again, cannibal girl
You've been eating me alive
I don't wanna bore you
But here I go again, cannibal girl
And that's what hearts are for
You give her one, she breaks more
It's the changing of the guards
And I'm the last one to know
When it's all just for show
And I'm trying to be so hard
I don't wanna bore you
But here I go again, cannibal girl
You've been eating me alive
I don't wanna bore you
But here I go again, cannibal girl
You've been eating me alive
I don't wanna bore you
Here I go again, cannibal girl
You've been eating me alive
I don't wanna bore you
Here I go again, cannibal girl
