Push

Gravity Co.

I push the blade
Into the wall
I push in deep
Im digging a holeGonna put up a fight
Gotta cut in clean
With my skin and bones
Im a cutting machineYou left me deaf
Left me blind
I leave you something
You cant rewindThe accusation zone
Fighting all the time
Well just be great again tomorrow
Waste each others timeYou shed your skin
Down on the ground
And you showed your face
And you shook it aroundThen you plug in a hit
You got me running scared
Flat on my back
I just wasnt preparedYou left me deaf
Left me blind
I leave you something
You cant rewindThe accusation zone
Fighting all the time
Well just be great again tomorrow
Waste each others timeWell just be great again tomorrow
Ill push you out
We decimate ourselvesPush me out
