

# Push

## Gravity Co.

I push the blade  
Into the wall  
I push in deep  
Im digging a holeGonna put up a fight  
Gotta cut in clean  
With my skin and bones  
Im a cutting machineYou left me deaf  
Left me blind  
I leave you something  
You cant rewindThe accusation zone  
Fighting all the time  
Well just be great again tomorrow  
Waste each others timeYou shed your skin  
Down on the ground  
And you showed your face  
And you shook it aroundThen you plug in a hit  
You got me running scared  
Flat on my back  
I just wasnt preparedYou left me deaf  
Left me blind  
I leave you something  
You cant rewindThe accusation zone  
Fighting all the time  
Well just be great again tomorrow  
Waste each others timeWell just be great again tomorrow  
Ill push you out  
We decimate ourselvesPush me out
