

# Dark Road

[Richard Hawley](#)

It's a long dark road that I call my home  
It's a long dark road that I'm cursed to roam  
These many nights I've been banished here  
My companion is the stars  
With a bed roll and a blanket  
And just the rocks to lay my bones  
One day from the darkness I'll come rapping at your door  
And I'll never walk this road anymore  
It's a long dark road that I call my home

It's a long dark road that I'm cursed to roam  
These many nights I've been banished here  
My companion is the stars  
With a bed roll and a blanket  
And just the rocks to lay my bones  
One day from the darkness I'll come rapping at your door  
And I'll never walk this road anymore  
No, I'll never walk this road anymore  
No, I'll never leave this home anymore
