

Something Wicked

Spencer Day

Voices in the house
When there's no one there
Footsteps in the dark
Creeping up the stairs
I can't deny all the trouble
That's on the way Whisper in my ear
Makes me turn my head
It's telling me to leave
But I stay instead
I can't deny there's
A terrible prize to pay
And when the sunlight starts to fade
So do the promises I made Chorus
I could try to hide
But there's nowhere to go
I could make it right
But I know that I won't
What I did can't be undone
Now there's nowhere left to run
Something wicked this way come, oh yeah Mornings in the wind does it blows your name
I hopelessly possess by desire's flame
I'm well aware that it's already much too late
I can taste the poison that's on your lips
I shiver at the touch of your fingertips
Why try to find
I'm delighted to seal my fate
I'm trapped in a twisted passion play
I danced with the devil everyday Repeat chorus.. Something wicked this way come
Something wicked, yes something wicked
I know there something wicked...
