

Heaven

Advisory - the following lyrics contain explicit language:

Yesterday you were in front of me
Woke up this morning,
All of a sudden you're a memory
Oh, if life is as short as they say it is,
I guess we'll meet again sooner than we think we will
They say a picture says a thousand words
But I would trade a thousand pictures to hear one of yours
And I've been saying prayers like I was writing you letters
'cause if heaven's far like I think it is
You wouldn't get them
I know heaven must be beautiful right now,
Since they got you babe
Since they got you babe
I know Heaven must be beautiful right now,
Since they got you babe
Since they took you babe
They say that god is full of mysteries
Sometimes I wonder if you tell him that you're missing me
'Cause I miss you every day
Like they took summer away
Like they took color away
And this grey
Needs to get the hell away from me
And I'm jealous of the angels
'Cause they see you every day
And I see you when I'm dreaming
But it doesn't feel the same
I know my heart is broken
But you can have it anyway,
If I could only see you again, again
I know heaven must be beautiful right now,
Since they got you babe
Since they got you babe
I know heaven must be beautiful right now,
Since they got you babe
Since they took you babe
Give my life for one last time with you
With you
Give my life for one last time with you

With youGot my space suit on
Gonna blast off
Take a vacation to where you are
Hoping heaven ain't all that far
You passed me by on a shooting star
Cause I wish so bad
One last chance
Take me back to the photograph
I close my eyes and I feel you laughter
But all I got is a frame and a glasses
Selfishness?
Should've made a room for the both of us
Loneliness
I'm not lost but I've got no direction
Parachute gone and I'm falling fast
My heart stopped but I'm still breathing
So numb but still I'm feeling
The less I look
The more I'm seeing
I just lost my heroI know heaven must be beautiful right now,
Since they got you babe
Since they got you babe
I know heaven must be beautiful right now,
Since they got you babe
Since they took you babe
