Only Love

Anggun

[Verse 1]My friends do always tell me that they see you drop the top,
got a girl in every city flirting all around the clock.
Oh baby's catching Junglefever Junglefever's catching you,
shouldn't try to tell me lies rather come out with the blues.
I got a feeling baby I lose control you cut my heart in peaces you crush my soul.
I got a passion baby I lose control you rip my heart in peaces you crush my soul.
[Verse 2]My man is creeping slowly day by day he's knocking boots,
magnatising all the ladys, will I pick my gun and shoot.

Oh babys playing with my warning with my heart you shouldn't play,
cause I'm living for the moment so I'm leaving you today.
[Refrain]You can go you can walk you can run you can hide away,
then you'll hear me say, it's only love.
All the time that I cry that I die that I lost in you,
I'd always trust in you, it's only love.
[Bridge]When I feel so bad when I feel so sad I'm longing,
at the time we had the time I can't forget
