

Only Love

Anggun

[Verse 1] My friends do always tell me that they see you drop the top,
got a girl in every city flirting all around the clock.

Oh baby's catching Jungle fever Jungle fever's catching you,
shouldn't try to tell me lies rather come out with the blues.

I got a feeling baby I lose control you cut my heart in pieces you crush my soul.

I got a passion baby I lose control you rip my heart in pieces you crush my soul.

[Verse 2] My man is creeping slowly day by day he's knocking boots,
magnatising all the ladys, will I pick my gun and shoot.

Oh babies playing with my warning with my heart you shouldn't play,
cause I'm living for the moment so I'm leaving you today.

[Refrain] You can go you can walk you can run you can hide away,
then you'll hear me say, it's only love.

All the time that I cry that I die that I lost in you,
I'd always trust in you, it's only love.

[Bridge] When I feel so bad when I feel so sad I'm longing,
at the time we had the time I can't forget
