

Second Street

Hill Country Revue

I could fry an egg on the street,
But it's so cold inside.
Just trying to be me,
I can barely stay alive.
Never mind to make ends meet,
I learned to survive.
I can handle defeat,
But I refuse to be denied.

Chorus:

Life it goes on after all,
But me, I stumble and I fall,
Good for you who feel complete,
'cause I'm here stuck on second street.
I'll take the hit, I'll take the fall
With my back against the wall.
Don't forget, remember me,
'cause I'm still stuck on second street.
Now I got to keep it real,
Right from the start.

Show exactly what I feel,
Deep with in my heart.
It's so clear what we go to do,
No matter how hard.
'cause a dream, it can't come true,
Until we do our part

Chorus

...stuck on second street...

Stop by to see me any time you want I'm always here,
In the shadows of the night living in the darkest spheres.
Don't walk alone, stray far from home, my dear stay near, until you learn

There's no return (4 x)

Chorus

Life it goes on after all.
I'll take the hit, I'll take the fall,
With my back against the wall,
Don't forget, remember me, still stuck on second street.
