The Edge (Demo Version)

Blind Guardian

The world turned innocent
Can you hear me?
(I confess I'm no redeemer)
Can you hear me?
What shall I do?I witnessed everything
Faith won't leave me
Mind my tongue
It's like a fire
(Faith don't leave me)
Glow into wordsThis is the edge now
It's all we're living for
Rain on me
Love, you will rain on meAnd at the end I
Boast in the cross and now
Love reigns the God incarnation
I've shapedOut there is a world on fireAccursed the hanged one
Divine love for free
What a fateful night
And a grateful life
The choir echoes
"Every man his price"Price, love, love, love, love
Light my agony
And crucify me
Void the law
At the ninth hour
Void the law
At the ninth hourThis is the edge now
It's all we're living for
Rain on me
Love you will rain on meAnd at the end I
Boast in the cross and now
Love reigns the God incarnation
I've shapedThe world turns flesh again
(No more fear in)
Mystified the final hours
(No more fear in)Passover the brook
Time it is at hand
Obscure the facts
A passion playThis is the edge now

It's all we're living for
Rain on me
Love, you will rain on meAnd at the end I
Boast in the cross and now
Love reigns the God incarnation
I've shapedHallowed be thy name
Hallowed be thy name
(No more fear in)Come take a look
The old symbols they move
Wounds still bleed
That's creedCome take a look
The old symbols they move
Wounds still bleed
That's creedCome take a look
The old symbols they move
(Can you see me?)
Come take a look
At the depth of my soul
