This Road

Squeeze

She sat at the dressing room table
He flicked through the channels on cable
While talking of love in whispers
Voices humming like dusty transistors(Talked about love)
Concentrated tones that talked
About love deep down on the phone
(Talked about love)
How it's built on pride that talked
About love a roller coaster ride
(Talked about love)
This road is a lifetime longComplete engagement, unlimited passion
Searching with peace in my soul
Built without boundaries
Burning every single breath
Ready to relinquish controlEach day brings them something else
But their faith will not be removed
