

Carry Me

Lynda Randle

Pain is a forest we all get lost in
Between the branches hope can be so hard to see
And in the darkness we've all got questions
We're all just trying to make sense out of suffering but
 You say I am blessed because of this
 So, I choose to believe
 As I carry this cross, You'll carry me
 Help me believe it
 Fear is a current we all get caught in
 And in its motion faith can be so hard to find
 And we all falter 'cause we're all broken
 We're all just trying to turn the shadows into light but
 You get glory in the midst of this
 And You're walking with me
 And you say I am blessed because of this
 So, I choose to believe

As I carry this cross, You'll carry me
And I know Your promises are faithful
And God, I've seen Your goodness in my life
 And oh, I've found Your mercy is a river
 Your love is an ocean wide
 You say I am blessed because of this
 You get glory in the midst of this
 And You're walking with me
 And You say I am blessed because of this
 So, I choose to believe
 As I carry this cross, as I carry this cross
 'Cause as I carry this cross, You'll carry me
 You'll carry me, God
 You'll carry me
 And Your love is an ocean wide
