The Answer To Why

Ledisi

Why me and how did I get here?
What now and where do I go?
I'm so scared, life ever changing
And the pain, will it ever go?
Please let me breathe
I just wanna know the answer to why
Everyday I breathe
I just wanna know the answer to why
In time I will know the answer
Right now I need to find a way
To let go of all my secrets and
Embrace the sun on my face
Today I'm gonna breathe
One day I'm gonna know the answer to why
Everyday I breathe
I just wanna know the answer to why
So many questions I have
So many prayers left unanswered
There's always a blessing, still I am guessing
Finding my way through the dark
Everyday I breathe
I just wanna know the answer to why
Everyday I breathe
I just wanna know the answer to why
Everyday I breathe
I just wanna know the answer to why
Everyday I breathe
I just wanna know the answer to why
Everything changes
I wanna know why
Everything changes
Everything changes
Everyday I breathe
I just wanna know the answer to why
