## **Mercury Smile**

## **Treble Charger**

It's been all the same

The wasted words

The way I'm feeling strange

Colors gone the way

Of empty rooms

And leaning over daysLetterbox in TV frame

I let you in

You'd do the same

Credit photograph

And maybe I can

Laugh if off againI love your mercury smile

It keeps me outta line

I try to simplify

The complicated kind

I got an alibi

If you're so inclinedEverything is beautiful

I don't know why

It had to be this wayI recall the blame

The failing terms

The light revealing stain

A fabric starts to Frey

With every line

Of thought begins decayLetterbox in TV frame

No reaction to a claim

Credit photograph

It made me laugh

So I can start againFalling in disgrace

Listen to the laughter

What a terrible waste

I can hardly wait
