

The Motion

Duck Sauce

It's not me and you, it's not me it's you
You're reckless and you know it, they don't love you like I do
Say you're moving on, well, I guess that's just the motion
I guess that's just the motionI don't have a fuck to give, I've been moving state to state
In my leather and my Timbs like it's 1998
And my dog Chubby Chub, that's my nigga from the way
On the east side of the city that's where everybody stay
Seem like everybody calling cause they want me on their song
It's like every time I touch it I could never do no wrong
When they need a favor from your man, they don't leave you alone
But I guess that's just the motionThen that phone doesn't ring
When they got everything, that's the motion
Oh-oh, I guess that's just the motionYeah, looking back on it at least my pride is intact
Cause we said no strings attached and I still got tied up in that
Everything that I write is either for her or about her
So I'm with her even when I'm here without her and she know it
The girl that I wanna save is like a danger to my health
Try being with somebody that wanna be somebody else
I always thought she was perfect when she was being herself
Don't even know how to help, but I guess that's just the motionShe'll probably come around
Soon as I settle down, that's the motion
Oh-oh, I guess that's just the motionNothing less and nothing more
I hear your heart hit the floor
Talking to you is not enough
I guess that's just the motion
