

I Was So Lucky

Roxette

It's no secret I've been waiting
But I didn't expect this
Nothing will remain, nothing stays
The same after you came
It's no secret I've been starving
I never felt anything for years
I sat up all night just to watch your smile
When you're sleeping
I was so lucky you came by
And turned a different corner
I could've been somewhere else
You could've passed by, could've passed by
Come on and sail the sea with me
Come on, let's go around the world
Maybe find a flat or a canyon house
For the season
Oh, I was so lucky you came by
And turned a different corner
It could've been someone else
You had in mind
I was so lucky you found me, oh
My rags turned gold and silver
I could've been somewhere else
You could've passed by
Oh, you could've passed by
What would you make of this, my baby?
The sun through the trees
Is there a better place to be?
Oh, I was so lucky you came by
And turned a different corner
Oh, it could've been someone else
You had in mind, oh my
I was so lucky you picked me
My trash turned to silver, yeah
I could've been somewhere else
You could've passed by, oh
You could've passed by, oh my baby
