

# I Got Nothin'

Darius Rucker

It's my third cup of coffee  
The fifth time I said I'm sorry  
The sun slowly peakin' through the glasses  
Says we've been up all night We both know where this is going  
It's been a long time coming  
Is it really over?  
Is this really goodbye?  
Maybe I should say something  
Maybe you'd change your mind  
Maybe, maybe  
Buy a little more time [Chorus]  
But I got nothing  
No magic words  
To stop your leaving  
To end this hurt  
I'm just blank  
I'm starrin' into a space  
Prayin' please, please let me think of something  
'Cause I got nothing I watch you pack your things  
You look down at your ring  
Slowly slip it off and then  
You lay it on our bed Maybe I should pick it up  
And get down on my knees  
Tell you what you wanna hear  
And give you what you need [Chorus] You're almost at the door  
And you stop and turn around  
You're eyes are begging me  
Please say something right now But I got nothing  
No magic words  
To stop your leaving  
And I can't end this hurt  
I'm just blank  
I'm starrin' into space  
Praying please, please let me think of something  
'Cause if you go  
I got nothin'
