

# By Chance (You & I)

## J-Ra

Hi

Girl you just caught my eye

Thought I should give it try

And get your name & your number

Go grab some lunch & eat some cucumbers

Why did I say that?

I don't know why.

But you're smilin' & it's something' I like

On your face, yeah it suits you

Girl we connect like we have bluetooth I don't know why

I'm drawn to you

Could you be the other one so we'd equal two?

And this is all based on a lucky chance

That you would rather add than subtract You & I

Could be like Sonny & Cher

Honey & Bears

And You & I

Could be like Aladdin & Jasmine

Lets make it happen La la la la la la la la

La la la la la la la

La la la la la la la la

La la la la la la la Hey

How've you been?

I know that it's been awhile.

Are you tired cause you've been on my mind

Runnin' thousand & thousands of miles

Sorry, I know that line's outta style

But you

You look so beautiful on this starry night

Loving the way the moonlight catches your eyes & your smile

I'm captivated

Your beauty is timeless never outdated I don't know why

I'm drawn to you

Could you be the other one so we'd equal two?

And this is all based on a lucky chance

That you would rather add then subtract You & I

Could be like Sonny & Cher

Honey & Bears

And You & I

Could be like Aladdin & Jasmine  
Lets make it happenBabe  
It's been 5 years since that special day  
When I asked you on our first date  
I guess it's safe to say thatYou & I  
Are better than Sonny & Cher  
Honey & Bears  
And You & I  
Are better than Aladdin & Jasmine  
We've made it happen  
SingingLa la la la la la la la
