Break My Heart

Keith Anderson

I've got a half o' jar of moonshine, some whiskey and some cheap wine
Leftover form the last time that you said your last goodbye
That's what you want, bring it on
And a big ol' stack of leavin' songs just waitin' to be turned back on
And I'll crank them up and sing along the second that your gone
So, go ahead, bring it on

[CHORUS:]
Break my yeah, shoot me down, I know I can take it now
Don't wait any longer, it'll only make me stronger
Break my heart, get it over with, get on with your goodbye kiss
Girl it's now or never 'cause its the last time that you'll break my heart

That little blond down at the club, the one you're so jealous of
Well late last night she called me up and heard that we're breaking up
That's what you want, bring it on
Now my buddies that you hated, they always knew we wouldn't make it
So they'r taking me to Vegas and I hate to keep 'em waitin'
Go ahead, bring it on

[REPEAT CHORUS:]
Break my yeah, shoot me down, I know I can take it now
Don't wait any longer, it'll only make me stronger
Break my heart, get it over with, get on with your goodbye kiss
Girl it's now or never 'cause its the last time that you'll break my heart

Do what you're gotta do
I guess somebody's dotta lose
But I'll get over you

[REPEAT CHORUS:]
Break my yeah, shoot me down, I know I can take it now
Don't wait any longer, it'll only make me stronger
Break my heart, get it over with, get on with your goodbye kiss
Girl it's now or never 'cause its the last time that you'll break my heart
