I Will

Sebadoh

Can you tell
That I'm about to lose control?
Someone else
Has found her way into my soul
Things have changed
No longer need to be with you
I'm still the same
But if it's leaving I must do
To be true
I will
SoI make a plan and start to move
And I follow
As she follows me away
And this will be
The hardest thing I've ever done
Getting more
Thank we were hoping for
Ain't fun
But it's done
And I willWho am I
And what did I begin?
All to feel a nail drag my skin
To draw this blood
From meAnd in the end
There never is an end
Nothing we protect
Can let us inSo find your way
I will
I willAnd in the end
There never is an end
Nothing we protect
Can let us inSo find a way
I will
I will
