

Where Have You Gone

Hogjaw

Lyrics_ Hogjaw_ "Where Have You Gone"
Extended version from 'The Official Video' (YouTube)

Last night I seen it comin'
But I fell in the swamp
Remembering through that whiskey bottle
That black door took all my thoughts

chorus:
Where have you gone?
Under the rising stars
Where have you gone?
When hell and high water come

I'm going to find you
And I'll remind you
Mess with the family
You're done

I know you thought you could fool me
Flipping your serpents tongue
Your poison only goes skin deep
Your bite ain't the last one

chorus:
Where have you gone?
Under the rising stars
Where have you gone?
When hell and high water come
...when it comes...

I'm going to find you
And I'll remind you
Mess with the family
You're done

chorus:
Where have you gone?
Under the rising stars

Where have you gone?
When hell and high water come

Where have you gone?
With so much damage done
Where have you gone?
You can only hide so long.....sooo long

I'm going to find you
And I'll remind you
Mess with the family
You're done

I'm going to find you
And I'll remind you
Mess with the family
You're gone
