

# Head Is Not My Home

MS MR

This space is not my home  
This head you drowning is not my home  
Made it out and cut it out  
Take things slow as we may bruise  
To reach our unpredictable pass  
Your heart, your heart understand mine  
Found in forbidden nights  
Sharpest loud and place is quiet  
Know the promises we make  
Guard now and never againMy mouth your lips  
Your hands my hips  
Hard time right now  
Will set free  
And relieves us  
Of our miserySecrets lie in our way  
Your kiss tastes better outside the light of day  
Know you're sure to scratch your back  
Break my knuckles feel them crack  
I reveal nothing, both played fate  
Pretend not to worry our hearts your hearts  
That stingMy mouth your lips  
Your hands my hips  
Hard time right now  
Will set free  
And relieves us  
Of our miseryHard to believe  
You could cause me harm  
This could cause me harm  
Hard to believe  
You could cause me harm  
This could cause me harmMy mouth your lips  
Your hands my hips  
Hard time right now  
Will set free  
And relieves us  
Of our miseryMy mouth your lips  
Your hands my hips  
Hard time right now  
Will set free

And relieves us  
Of our misery
