

I Wanna Make An Arrest

Martha Wainwright

I dont mind being left behind
I no longer care where the sound is coming from
I cant hear the tears in your eyes
I am always, always in disguise I wanna make an arrest
And stop time and this test
And lie down in the road
And youre still at home
And youre still at home Pavement is changing under my feet
I no longer walk with chin high or skip to the beat
I need to lie down
Its terminal, see
Im feelin the pain
Ive got the disease Oh I wanna make an arrest
And stop time and this test
And lie down in the road
And youre still at home
And youre still at home Take off your shoes
And stay awhile
Ive been here waitin to see your smile
Summers comin and the nights are long
Ive been here listenin, cryin to your song Oh I wanna make an arrest
And stop time and this test
And lie down in the road
And youre still at home
And youre still at home Running against the clock
Color blind all this time
I went for a ride
And I left your side
Now Im in the lost and found
And youre not around
And theres no one I can see who can help me Oh I wanna make an arrest
And stop time and this test
And lie down in the road
And youre still at home Oh I wanna make an arrest
And stop time and this test
And lie down in the road
And youre still at home
And youre still at home
