

King for a Day

Forever the Sickest Kids

King for a day
King for a day You give so much more
Than they you get credit for
This world shuts down
But your heart is an open door You keep running around, running yourself down
Take a breath, take a second and you'll see
Everything that I've got is everything that you need
Not much but I'll give you one thing Can't you see you're beautiful
And you deserve so much more
I would give you everything
If there was a way If I was king, king, king for a day
I'll make, make, make you my queen
Give, give, give you anything
King for a day, king for a day
King for a day, king for a day I'll take you away from this little apartment
And escape this pain that, that you've been living with
I would build you a castle in the sky so high
It'll blow your mind, I will give you a crown
Made from my promises for better life and Can't you see you're beautiful
And you deserve so much more
I would give you everything
If there was a way If I was king, king, king for a day
I'll make, make, make you my queen
Give, give, give you anything
King for a day, king for a day
King for a day, king for a day Every little thing, every little thing
That you do is driving me insane
Every little thing, every little thing
That I have is all for you I wanna be king, king, king for a day
King, king, king for a day
If you'll be queen If I was king, king, king for a day
I'll make, make, make you my queen
Give, give, give you anything
King for a day, king for a day
King for a day King for a day, king for a day
King for a day
King for a day, king for a day
King for a day King for a day, king for a day
King for a day, king for a day
