

Sun Is Here

Sun

Stay with me, don't go away?
And when the sun will set on you
You'll find the sun will always shineStay with me, don't go away?
Be my friend in your own way
And when, the sun will set on you
You'll find the sun is here to shineShining on your days so you can be fine
Shining on your days so you can beHere in my arms, Here in my arms
You will be here in my, here in my
You will be here here in my arms?Come to me, I'll set you free
I won't go, you'll never be alone
And when, the sun will set on you
You'll find the sun is here to shineShining on your days and you will be fine
Shining on your days and you will beHere in my arms, Here in my arms
You will be here in my, here in my
You will be here here in my arms?Here in my arms, Here in my arms
You will be here in my, here in my
You will be here here in my arms?
