

# Planet of Women

## Sonny & The Sunsets

The 2-headed lady said I couldn't land my ship  
I said it would only take a minute "Well," she said, "what's in it?"  
Oh, I don't know. Just some weird shit.  
("Okay.")La la la la la  
When I got to the surface, there were women everywhere.  
("Hey, how you doing?")  
And all the men were slaves  
They had us all dressed up in chains  
("ooh, look at that one")  
And there was a queen  
She had her own dick all dressed up in black  
("come back here, Sonny")  
Her name was?  
I like it like that?  
Queen?  
I like it like that.  
And I fell in love with a leader from the underground.  
He said he'd set me free  
("we can all be free, dude")  
But when I fell asleep he stole the key and split the scene, I guess.  
I never learned. No, I never learned  
Fags in drag, no matter where I lay  
I get burned, so burned  
La la la laIt's hard living on the planet of women  
Gonna find me a river and drown myself in it ("bye-bye")La la la la la
