

The Secret Life of Six

They Might Be Giants

The secret life of six
Means having fun
When everyone's inside
He's in the sunSix knows how to stand on his head
Six knows how to stand on his head
Six knows how to stand on his head
Six knows how to stand on his headAnd when six pretends he's nine
He acts older and older
And when six pretends he's nine
He wears wiser disguisesThe secret life of nine
Means having fun
When everyone's inside
He's in the sunNine knows how to stand on his head
Nine knows how to stand on his head
Nine knows how to stand on his head
Nine knows how to stand on his headAnd when nine pretends he's six
He acts sunny and funny
And when nine pretends he's six
He announces, he bounces
