Mikky Ekko

Well, well, well, well...
Look at you Tell me all the things you wanna do
Baby it's your body, let it choose
It's a long long road to love Still remember the first time that I saw your face
It was not love at first sight
The only reason I tell you that now
Is cause everything feels so right
With you lying next to me
And telling me your fantasies
Yeah, everywhere we go is so, so easy (chorus)
Tell me all the things you wanna do
Baby it's your body, let it choose
It's a long long road to love
Show me what it means to take it slowly
Friendship into love takes growing
Knowing it's a long long road to love You got me swimming in your ocean
In your eyes I see devotion
In my eyes you see a man hoping
That you'll not leave until the morning
So, baby, stay with me a little while longer
You know I beg, I plead to see you smile
No hesitating, never keep you waiting
But I'll always take my time with you (chorus)
Tell me all the things you wanna do
Baby it's your body let it choose
It's a long long road to love
Show me what it means to take it slowly
Friendship into love takes growing
Knowing it's a long long road to love
Leads back to you Give it all, give it all, give it all for you
Give it all, give it all, give it all for you
You're the only one I love for, try for
Weep for, die for, you know I give it all for you
