## Alter Bridge

Hope [echos]  
The only thing that we have left to hold [echos]  
In a world gone mad theres nowhere left to go [echos]  
Where nothing lasts theres permanence I knowIs there something I can say?  
To bring back what once remained  
Where is all that we let go?  
Where is home?Doubt [echos]  
From inside I hear it calling out [echos]  
Tearing at the truth it must be found [echos]  
In the end it only brings me downIs there something I can say?  
To bring back what once remained  
Where is all that we let go?  
Where is home?If you need a reason a reason tonight  
To cast every doubt from your heart and your mind  
Look to tomorrow and maybe youll find  
Something more. Something more.Is there something I can say?  
To bring back what once remained  
Where is all that we let go?  
Where is home?
