Who Followed Who?

Default

Starting fights that can't be won
Just one round and you'll be gone
When it's lost, you'll regret it
Much too hard to forget it
No one to take pity onSo when you try hard to avoid the truth
Look again, who followed you?
Somehow you thought
Thought that you're hard to lose but in the end
Who followed who? Who followed who?One false step, this road is gone
(One false step, this road is gone)
No one here to prove you wrong
(No one here to prove you wrong)
When it's lost, you'll regret it
Much too hard to forget it
No one to take pity onSo when you try hard to avoid the truth
Look again, who followed you?
Somehow you thought
Thought that you're hard to lose but in the end
Who followed who? Who followed who?
(Who followed who? Who followed who?)Try hard to avoid the truth
Look again, who followed you?
Somehow you thought
Thought that you're hard to lose but in the end
Who followed who?
(Who followed who?)So when you try
(When you try)
Hard to avoid the truth
(Avoid the truth)
Look again
(Look again)
Who followed you?Somehow you thought
(You thought)
Thought that you're hard to lose
(Hard to lose)
But in the end
(But in the end)
Who followed who? Who followed who? Who followed who?
(Who followed who?)
