Quality

Paul Simon

The way you move, it's got quality
Come on baby, let's go downtown
Little girl, you sure look good to meThe way you move, it's got quality
Come on baby, now don't be shy
Step in the light so I can seeThe way you move, it's got qualityI want to know are you my beautiful young boy
Or just another love passing through my life
I need to know, will you be my sorrow and my joy
And maybe one day soon, will I be your wifeCome on baby, let's rock some more
I wanna spend my salary
The way you move, it's got qualityEvery time they see me walk down the street
They say [Incomprehensible] that boy is fine
The way he moves, got qualityI want to know are you my beautiful young boy
Or just another love passing through my life
I need to know, will you be my sorrow and my joy
And maybe one day soon, will I be your wifeQuiero saber
Quiero saber
Nadie nunca sabe
En la vidaThe way you move, it's got quality
The way you move, it's got quality
