

Gettin' Dangerous

Axel Rudi Pell

Take what you want, if all's what you need

Well, that was a thing of the past.

Yours 4 the night & all the next day

But you know all good things never last. All the evils you once saw as joy

Have finally caught up 2 u.

Others misfortunes are lessons we've learned

It's hight time we know what 2 do...It's gettin' dangerous

The world's going under as we fall

It's gettin' dangerous

It's time 2 decide when our fate calls Why does the rain cry on our souls

While bloodshed takes over the streets?

Why does the night decide not 2 end

When tomorrow is now what we need? Do you remember a simpler time

When dreamers could follow their dreams?

It's so plain 2 see that we've drifted so far

It's not how it once used 2 be...It's getting' dangerous

The further we go now the deeper we burn

It's gettin' dangerous

If you don't give a damn the world ceases 2 return. [repeat chorus]
