

Year Round Summer of Love

LOLO

Summertime's coming and you know what I'll be wanting Year round summer of love

It's a year round summer of love

Year round summer of love

It's a year round summer of love This is how it's gonna be

Remember when you never used to see a lot of me

I was always tired or busy

Until the day that I let you put it on me

And then you put it on On and on to the break

Don't know now no mistake did it great

So now every time that you see me in your phone

You better pick it up don't run don't run give me what I want want

From now on I

Think you're gonna see a lot of me oh I love the way you work it in the summertime

I love the way you smash when you dance ha

I saw you before I was yawning

But now I kinda want it every morning

Well do you believe me I'm with it now

Ooh baby baby we about to get it in now

I know you know what this here is about

So summertime's coming and you know what I'll be wanting Year round summer of love

It's a year round summer of love

Year round summer of love

It's a year round summer of love This is how it's gonna be

I remember telling you there was someone else

But you're the only one running through my head these days

You keep me so busy I can't see straight

No I can't see straight Everyone's asking me

What's happened cause they see the way I'm acting

I got a little more pep in my step since the day we met

I wanna thank you for all the gifts I'm getting

From now on I

Think you're gonna see a lot of me oh I love the way you work it in the summertime

I love the way you smash when you dance ha

I saw you before I was yawning

But now I kinda want it every morning

Well do you believe me I'm with it now

Ooh baby baby we about to get it in now

I know you know what this here is about

So summertime's coming and you know what I'll be wanting Oooh oooooooooooh ooaaaaaaah

(wahhhahhahahoooh)

Oooh (hoooooooo) ooooooooooooh aaaaah (aaaoooh aaaoh ah) I love the way you work it in the summertime

I love the way you smash when you dance ha

I saw you before I was yawning

But now I kinda want it every morning

Well do you believe me I'm with it now

Ooh baby baby we about to get it in now

I know you know what this here is about

So summertime's coming and you know what I'll be wanting Year round summer of love

It's a year round summer of love

Year round summer of love

It's a year round summer of love
