Last Night I Nearly Died

Duke Special

Can't put this off forever
I've got to tell you some time
But when I try and say it
My mouth just gives up and diesI lose my meaning
When I get this feelingLast night I nearly died
But I woke up just in time
Last night I nearly died
But I woke up just in timeI'm not who you think I am
I slipped a stranger inside
It helps the nights go quicker
But I diminish each timeAnd in the morning
I shake the warningLast night I nearly died
But I woke up just in time
Last night I nearly died
But I woke up just in timeI lose my meaning
And I get this feelingLast night I nearly died
But I woke up just in time
Last night I nearly died
But I woke up just in timeLast night I nearly died
