

Break

Casey McQuillen

Don't get me wrong
I loved you all along
When we were in the grass
Watching clouds pass
I loved you in the leaves
And you were loving me
But that was long ago
And now you need to know

That soon I'll say goodbye
Leave us here to cry

I don't want to break your heart
Please stay away from me, away from me
Please just stay away
The words I'd have to say
Would break me, break into us
Into us

You don't understand
When he held my hand
It used to get me so much
But when I try to say
A thousand more mistakes
He just writes it off as love
And he's not what I need
And now I have to go, oh

I don't want to break your heart
Please stay away from me, away from me
Please just stay away
The words I'd have to say
Would break me, break into us
Into us

I don't want to break your heart
Please stay away, stay away
Please just stay away
The words I'd have to say
Would break me, break into us

Into us

And the days that we spend
Are getting harder
I know you see
But I think of the time in the rain you ran
After me
And I think of the way you said I love you, way too much
But I turn to you
And I break
Into us
Into us, oh yeah

And the days that we spend
Are getting harder
I know you see
But I think of the time in the rain you ran
After me
And I think of the way you said I love you, way too much
But I turn to you
And I break
Into us
