History

Blue System

If I talk in my sleep and I talk in my dream
I'm just a fool for you
Oh, I'm under your spell, baby and it seems
All this in heaven tooOh, I'm that guy who'll take the pain
Behind closed doors you'll lie again
The light shot diamonds from your eyes tonightIt's history, there is enough for you and me
I promised myself to you, for sure my baby
Oh, I swear you can't ignore
History, I justify my love is free
There is enough my heart, for sure my lady
That's what lovers living forOh, you took all my love and you took all my soul
I'm just a jealous guy
Oh, I drown in my tears when I lose control
There is no reason whyOh, there's a heart with no name
And you are playing tricks again
The light shot diamonds from your eyes tonightIt's history, there is enough for you and me
I promised myself to you, for sure my baby
Oh, I swear you can't ignore
History, I justify my love is free
There is enough my heart, for sure my lady
That's what lovers living forIt's history, there is enough for you and me
I promised myself to you, for sure my baby
Oh, I swear you can't ignore
History, I justify my love is free
There is enough my heart, for sure my lady
That's what lovers living for
