

# I'm Lonely

## Beautiful Small Machines

Oh Lord, I'm a very sharp sword  
Number one upon the billboard  
It's the effect you don't expect  
You never know what's coming next  
So get a grip quick drop a gear running high to the sky  
Can you fly?  
Like a killer in Manila  
I make you shiver  
My name is MC I  
Baby  
I don't want you to go  
I love you so  
More than you will ever know  
Lately  
I only made you cry  
But don't you say good bye  
Won't you give me one more try  
'Cause I'm lonely  
I feel so lonely  
I need your body by my side  
To get me through there endless nights  
I'm lonely  
I feel so lonely  
There's no one in this world for me but you  
Alright  
Yeah

Pull 'em up  
Oh Lord, every time we cut the slack  
Always forward never ever going back  
We're playing full session, full swing  
Got the sounds of the real thing  
So get a grip quick drop a gear we progress and express  
We're coming fresh  
The appliance of the science  
We getting strong, oh yes  
And we're dressed for success  
Lately  
I only made you cry

But don't you say good bye  
Won't you give me one more try  
'Cause I'm lonely  
I feel so lonely  
I need your body by my side  
To get me through there endless nights  
I'm lonely  
I feel so lonely  
There's no one in this world for me but you  
Keep it up now  
Come on  
Pull 'em up, pull 'em up
