

Influence

Mortification

Those who seek after fame put others down
Climb the heights of your dream to be proclaimed
The world doesn't need any more stars exalting self
World needs more people of faith
Influence in your life
We don't want the fame, we want salvation
Influence for the cross
Unity of the faith across the nations
Make the way of the cross, your life's goal
Pull the man from his grave to be revived
Millions of hopeless trodden people
There is hope in the saving blood of Christ
Influence in your life
We don't want the fame, we want salvation
Influence for the cross
Unity of the faith across the nations
Go into all the world and preach the gospel
To every listener and to all who believe
In Jesus Christ will be saved
But they who do not believe will be condemned
Come on, let's worship Jesus, come on, let's go
He's our great dear Lord, our great high priest, yeah
Let me hear some noise out there
[Incomprehensible] here we go
Influence in your life
We don't want the fame, we want salvation
Influence for the cross
Unity of the faith across the nations
See the light in the eyes of the holy man
Can't you see that the rivers flow within?
Why be lost in a sea of hate and lust?
We can tell you the change is now in Christ
Influence in your life
We don't want the fame, we want salvation
Influence for the cross
Unity of the faith across the nations
Here we go again, come on
Let me see your hands in the air
Alright, yeah, let me see you smile
Now listen up
Now be born to a new life
Certain hell awaits the lost
The utter pain without God in eternity
Is more than a thousand lashes could toll
Influence in your life
We don't want the fame, we want salvation
Influence for the cross
Unity of the faith across the nations
Influence in your life
We don't want the fame, we want salvation
Influence for the cross

Unity of the faith across the nations, yeah
