

Yesterday

Mainstay

Watch my mind grow legs and wander
What did I expect to find out here, out here? I am only halfway here tonight
Say that You can take this off of my mind
Every time I go back I realize
That yesterday is never as good as it seems I'm lost in the feelings that I thought were gone
Come in and make all of their light fade out, it fades out I am only halfway here tonight
Say that You can take this off of my mind
Every time I go back I realize
That yesterday is never as good as it seems Oh, make their light fade out
Oh, make their light fade out I am only halfway here tonight
Say that You can take this off of my mind
Every time I go back I realize
That yesterday is never as good as it seems
Yesterday is never as good as it seems
