

# Smile

## Silage

Chorus:

As you can see we're filled with joy  
Our purpose here is to deploy  
These smiles stuck up on our face  
Reflect the love we found in grace  
Some smiles come and go away  
But ours are here, they're here to stay  
If you can't keep your corners up

Then come find out what works for usWhen I go home I'm gonna draw

An abstract picture of you all  
When I do the faces, I don't want frowns

I want to color you like clownsPickitty up, up, up, ha, ha, ha  
Pickitty up, up, up, ha, ha, ha[Repeat Chorus]As you can see we're filled with joy  
Our purpose here is to deploy  
These smiles stuck up on our face  
Reflect the love we found in graceAs you can see we're filled with joy  
Our purpose here is to deploy  
These smiles stuck up on our face  
Reflect the love we found in grace
