

Have It All

MAGIC!

It's a mystery, our destiny
Like a gamble technology
Like an alien from outer space
Is it really green? We'll find out one day
So you and me don't have to
You and me don't have to
You and me don't have to know it all
As long as we can stay true
As long as we can stay true
As long as love don't change
We can have it all
The sun, the stars, the human heart
It can fill you up, it can fall apart
So I will try with every beat
To love you with the best of me
So you and me don't have to
You and me don't have to
You and me don't have to know it all
As long as we can stay true
As long as we can stay true
As long as love don't change
We can have it all
It's a mystery, our destiny
Like a gamble technology
So you and me don't have to
You and me don't have to
You and me don't have to know it all
As long as we can stay true
As long as we can stay true
As long as love don't change
We can have it all
Have it all
We have it all, come on
Have it all
Have it all
Have it all
