Look So Easy

Dave Barnes

I've been rued enough for the both of us
I hope that I haven't said too much lately, ooh lately
You laugh and listen to my mind
Underneath the lights of the city sky, baby, ooh baby
When laughing is gone my way
You're still beside me
When it all fall into places
Just remind me
Either way it's fine with me
You make it look so easy
We got all the time we need
Either way it's fine with me
You make it look so easy
You make it look so good
All these pictures hanging in the room
And things I thought I'd never do, baby, ooh baby
And I second guess what you don't doubt
And somehow it just don't works out lately, ooh lately
When laughing is gone my way
You're still beside me
When it all fall into places
Just remind me

Either way it's fine with me
You make it look so easy
We got all the time we need
Either way it's fine with me
You make it look so easy
You make it look so good
My life gets brighter by the day
From loving you, shine
I don't think you even have to try
Either way it's fine with me
You make it look so easy
We got all the time we need
Either way it's fine with me
You make it look so easy, baby
You make it look so good
Either way it's fine with me

You make it look so easy
We got all the time we need
Either way it's fine with me
You make it look so easy, baby, babe
You make it look so good
