

Man Against Man

Fifteen

Fuck Marxism

Fuck Socialism

Fuck Capitalism

Fuck Anarchism

White man's got a whole lot of solutions

White man's got a whole lot of problems

White man's got a lot of bright ideas

White man like to play God

White man says, he says that God is a white man.

Everybody else and everything else gets systematically objectified

Fuck Communism

Fuck Democracy

Fuck science

Fuck reason and rationality

White man's got a whole lot of solutions

White man's got a whole lot of problems

White man's got a lot of bright ideas

White man like to play God

White man says, he says that God is a white man.

Everybody else and everything else gets systematically objectified

White man says, he says nature is not a part of God

White man's got progress, but its only pollution

White man's got technology, it's only confusion

White man's got Nature yeah, and he's got the papers to prove it

White man's got a bomb and he's stupid enough to use it

White man says, he says that God is a white man

Everybody else and everything else gets systematically objectified

White man says, he says nature is not a part of God

To kill her becomes justified

White man says, yellow man, red man black man they are not a part of God

To kill them becomes justified

Man against God

Man against Nature

Man against Woman

Man against child

Man against Man

[inspired by the writings of Russell Means]
