Girls & Pills

Flickerstick

Forget yourself for a day
And all your friends keep tellin you
That I'm dying
Well, I'm thinking about surviving
Now you're floating away
I know your name
I know your face like a stranger
But I'm liking the taste of the danger
So leave
And I can sell you out
I like the girls
Who like the pills
The ones that cure
The ones that kill
I like the girls
Who like the pills
I'll take my share of the blame
I smell your cigarettes
Your sex and your violence
But your love and hate
Is louder than silence
And all you want is the fame
The voice is free
But soon you'll be buying
And tv cameras
Know that you're lying
So leave
And I can sell you out
I like the girls
Who like the pills
The ones that cure
The ones that kill
I like the girls
Who like the pills
I like the girls

Who like the pills
The ones that cure
The ones that kill

(I like the girls who...)
I like the girls
Who like the pills
(I like the girls who...)
I like the girls
Who like the pills
The ones that cure
The ones that kill
(always forever...together)
I like the girls
Who like the pills
I like the girls
Who like the pills
The ones that cure
The ones that kill
(always forever...together)
I like the girls
Who like the pills
I like the girls
Who like the pills
The ones that cure
The ones that kill
(always forever...together)
I like the girls
Who like the pills
I like the girls
Who like the pills
The ones that cure
The ones that kill
(I like the girls who...)
I like the girls
Who like the pills
