

Don't Be Shy

Shwayze

Come, come, summertime
Love, love, hold my hand
Come, come, summertime
Love, love, take a ride with me Sweet little nectarine
Sit down next to me
Take a load off Annie
I think youre beautiful Do ah diddy diddy, dum diddy do
When the moon is full, Ill be a wolf
Howl at you and growl at you
Ladybugs and flowers too
I wanna go out with you Im just a kid living a dream
Slid in the scene like an old pair of jeans
You know my name but you dont know me
Wanna go out with me? Show me Come, come, summertime
Love, love, hold my hand
Don, don, don, do don don, do don don
Dont be shy Come, come, summertime
Love, love, take a ride with me
Don, don, don, do don don, do don don
Dont be shy Black smoke billow out
The black tinted window
In my black limousine
As I ride through the ghetto Yo, she wore blush, it gave me a rush
She was a lush, I gave her a touch on the tush
I gave her a push on the bed
And we smushed our lips together Like blue and yellow we made a green meadow
Chilled together forever, real mellow
She fell in love, I had to act, hello
I couldnt say goodbye, she was too special Come, come, summertime
Love, love, hold my hand
Don, don, don, do don don, do don don
Dont be shy Come, come, summertime
Love, love, take a ride with me
Don, don, don, do don don, do don don
Dont be shy All my ladies, put your hands
In the sky for me babies
And say my name
They call me Shwayze Turn it up, turn it up, play me
Turn it up, turn it up

Turn it up, turn it up
Turn it up, turn it upCome, come, summertime
Love, love, hold my hand
Don, don, don, do don don, do don don
Dont be shyCome, come, summertime
Love, love, take a ride with me
Don, don, don, do don don, do don don
Dont be shyCome, come, summertime
Love, love, take a ride with me
Don, don, don, do don don, do don don
Dont be shyCome, come, summertime
Love, love, take a ride with me
Don, don, don, do don don, do don don
Dont be shy
Don, don, don, do don don, do don don
Dont be shy
